DEPARTMENT OF ELECTRONICS AND COMMUNICATIONS

CERTIFICATE

This is to certify that the internship entitled **"FullStack developer"** is a bonafide work carried out by **KAMAL S (1VI22EC066)** in partial fulfilment of the requirements for the award of Bachelor of Engineering degree in **Electronics and communications**, Visvesvaraya Technological University, Belagavi, during the academic year 2025-2026.

It is certified that all corrections and suggestions indicated for internal assessment have been duly incorporated in the report. The internship report has been approved as it satisfies the academic requirements prescribed for the said degree.

ACKNOWLEDGEMENT

I sincerely thank Visvesvaraya Technological University (VTU) for providing me with the opportunity to undertake this internship as a part of the academic curriculum, which has contributed significantly to my learning and overall development.

I express my sincere gratitude to Dr. Vijayasimha Reddy B G, Principal, Vemana Institute of Technology, Bengaluru, for providing the necessary infrastructure, encouragement, and support to successfully carry out the internship work.

I extend my heartfelt thanks to Dr. Suneeta, Head of the Department, Electronics and communications, Vemana Institute of Technology, for their constant guidance, motivation, and encouragement throughout the internship duration.

I would also like to thank Internal Supervisor Prof. Suma B V, External Supervisor Maneesh Kumar Varma, and all Internship Coordinators for their cooperation, coordination, and support during the internship period.

I am thankful to all the teaching and non-teaching staff members of the Department of Electronics and communications for their support and encouragement throughout the internship.

I also acknowledge the support of Supram Technologies for providing structured learning resources and an environment that encouraged systematic understanding, practical application, and continuous improvement.

KAMAL S

Chapter 1

INTRODUCTION

This chapter provides an introduction to my internship experience at Supram Technologies in the role of FullStack developer. It outlines the objectives, scope, and relevance of the internship in relation to my academic background in Electronics and communications. The chapter also discusses the evolution of technologies and current trends related to the work carried out during the internship period. Internships play a crucial role in bridging the gap between theoretical knowledge gained in the classroom and practical skills required in the industry. This internship provided me with a unique opportunity to apply my engineering knowledge in a real-world professional environment, working alongside experienced professionals and contributing to meaningful projects.

1.1 Internship Scope and Objectives

1.2 Relevance of FullStack developer to Electronics and communications

1.3 Evolution of Practices in the Field

1.4 Current Trends and Technologies

Chapter 2

ORGANISATION PROFILE

In addition to answering questions like when and where the internship was completed, this chapter gives a comprehensive overview of Supram Technologies and concentrates on its history, founding vision, organizational structure, services offered, and overall impact in the industry. Understanding the organization where the internship was carried out is essential as it provides context for the work done and helps in appreciating the learning environment that contributed to the overall internship experience.

2.1 Introduction

Supram Technologies is a leading organization that provides structured learning, training, and internship programs to engineering students and professionals across multiple domains. The organization has established itself as a reputable entity in the technology sector, known for fostering innovation, supporting skill development, and contributing to the growth of the engineering workforce. With a commitment to practical education and industry-aligned training, the organization has been instrumental in shaping the careers of numerous students and professionals.

2.2 Vision and Mission of the Organization

2.3 Programs and Services Offered

2.4 Organizational Impact and Reach

2.5 Core Values

Chapter 3

WORK DONE / METHODOLOGY

The work completed during the internship and the methodology used are presented in this chapter. This chapter provides a detailed account of the day-to-day activities, the tools and technologies employed, the work process followed, and the key projects undertaken. It also discusses the challenges encountered during the internship and the solutions implemented to overcome them. The chapter aims to give a comprehensive understanding of the practical work experience gained during the internship period.

3.1 Overview of Internship Work

3.2 Tools and Technologies Used

3.3 Work Process and Methodology

3.4 Key Project and Case Study

3.5 Challenges Faced

3.6 Solutions Implemented

Chapter 4

RESULTS AND DISCUSSION

The work that was evaluated and examined during the internship is included in this chapter. This chapter presents a thorough analysis of the outcomes achieved, the learning acquired, and the overall effectiveness of the internship experience. It evaluates the deliverables produced, the skills developed, and provides a critical analysis of the entire internship journey, highlighting both the successes and areas for improvement.

4.1 Outcomes of the Work

4.2 Learning Outcomes

4.3 Analysis

Chapter 5

CONCLUSION

This chapter summarizes the overall internship experience, highlighting key outcomes, personal growth, and future directions.

5.1 Summary

5.2 Personal Growth

5.3 Future Scope
